In 100 words or less state why this nominee is one of the top neutrals working in California. What are the skills that he or she possesses?

Steven Rosenberg never ceases to amaze me at his ability to get cases settled. He has the ability to adapt his process to suit the litigants and attorneys in resolving their differences. There is no one precise approach that can result in a settlement in every case. Usually he facilitates the litigants own compromise. However in one case I mediated with him he was able to suggest a very imaginative resolution that no party or attorney had considered. Mr. Rosenberg has my highest recommendation as a professional, well educated and accomplished mediator.
